

QUALITY POLICY

Cathedral Energy Services Ltd. is the industry's leading provider of high-performance directional drilling products and services.

Drilling operations are complex. Cathedral's skilled and experienced team is committed to identifying, understanding and complying with requirements at every step of the project. Our state-of-the-art technologies ensure that our Customer's drilling operations run efficiently and project costs are minimized.

Our commitment to quality and continuous improvement is fundamental to Cathedral's pursuit of consistency, industry-leading product reliability and flawless service delivery

Note: Quality Objectives are reviewed at the beginning of each year, and during Annual Management Review.

Vaughn Spengler, SVP Canadian
